

PEES Power Systems

Uninterruptible power supply can be used as solar outdoor power cabinet

Overview

Yes, you can establish a direct connection between solar panels and an Uninterruptible Power Supply (UPS), ensuring backup power during downtime. The UPS can harness solar energy to charge its battery when the main grid is not available. Weatherproof UPS backup systems for emergency backup power. DC systems are available in 12, 24 and 48 volt. AC systems are available in 120 VAC. With over 35 years of experience in the global outdoor market, Alpha is the leader in providing a complete line of AC powering solutions from indoor to rugged outdoor applications. Our outdoor UPS enclosures are engineered to withstand harsh weather conditions, ensuring uninterrupted power. Outdoor UPS systems are rugged back-up power supplies that are designed to support Access Control, Security, Public Utility and Telecommunications applications, most of which are in harsh outdoor locations. Only 12 left in stock - order soon.
