# Unpacking support frame for photovoltaic panels

## Overview

---

It's best to stage the pallets in a flat, open and dry location when unpacking them, and position the pallets next to a solid, self-standing support structure, such as a tracker post or wall, where you can lean the modules once they are removed from the packaging. Always insert the fork from the short side of the pallet, as long as it is safe to do so. Use forklifts with a backrest greater than 48 inches. It is crucial to follow the outlined measures and guidelines for the safe unloading and unpacking of your solar modules. Improper handling can lead to injury or damage. When you need to unpack and install the modules, you can search and download relevant content from Jinko's official website. In the process of loading and unloading, the forklift. Proper photovoltaic panel unpacking requirements and specifications aren't just red tape; they're the difference between a 25-year energy workhorse and an expensive glass paperweight.
