

## PEES Power Systems

# Use 3 or 4 strings for solar outdoor power cabinet

**TAX FREE**

### Product Model

HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

### Dimensions

1600\*1280\*2200mm  
1600\*1200\*2000mm

### Rated Battery Capacity

215KWH/115KWH

### Battery Cooling Method

Air Cooled/Liquid Cooled

## Overview

---

A home solar combiner box usually connects 2 to 4 strings. The voltage goes up as the system gets bigger. This helps move more power and lose less. A solar combiner box consolidates multiple panel strings into one output, simplifying wiring and improving system safety, reliability, and maintenance. Each string would be wired individually to 15amp DC breaker and wired via 146' cable lengths to my inverter. I have a 4" conduit installed with the string in the trench ready for the cable pull. In this guide, we'll walk you through everything you need to consider so that you can choose the perfect combiner box for your solar.

## Use 3 or 4 strings for solar outdoor power cabinet

---

### How many photovoltaic strings can be connected to a solar combiner ...

For a business, you might connect 6 to 24 strings. Big utility projects can use boxes for 16 to 48 or even more strings. The voltage goes up as the system gets bigger. This helps move more power and lose ...
