ENERGY STORAGE SYSTEM

Product Model
 HJ-ESS-215A(100KW/215KWh)
 HJ-ESS-115A(50KW/115KWh)

Dimensions
 1600*1280*2200mm
 1600*1200*2000mm

Rated Battery Capacity
 215KWH/115KWH

Battery Cooling Method
 Air Cooled/Liquid Cooled

Investment opportunities

Victoria's energy market is changing. By 2035, we will need 25 GW of new renewable energy and storage capacity. This creates unprecedented opportunities - needing an estimated \$35 ...

Batteries and energy storage projects

Victoria is the home of big batteries and has legislated storage targets of at least 2.6 GW by 2030 and 6.3 GW by 2035 to provide crucial support for more renewable capacity.

Victoria Mobile Energy Storage Container 20MWh Investment

How many large-scale storage systems does Victoria have? Victoria has 12 commissioned large-scale storage systems and 3 in commissioning - with a total output capacity of 1028 MW and storage ...

Victorian renewable energy and storage targets

The firm capacity delivered by Victoria's energy storage targets will provide reliable, affordable and clean energy as Victoria's ageing and increasingly unreliable coal generation is ...

Terang Big Battery To Boost Jobs And Strengthen Grid , Premier

The Allan Labor Government is building Victoria's renewable energy future and investing in critical battery storage technology to help strengthen the grid and store cheaper, cleaner renewable ...

Victoria's Investment Prospectus ENERGY STORAGE

Victoria welcomes investment in a range of energy storage technologies, including short, medium and long duration storage. As planned coal generation closures occur, delivering long duration storage ...

Australian government supports six new battery storage projects

The Australian Capacity Investment Scheme (CIS) is set to bolster energy storage capabilities in Victoria and South Australia with support for six new large-scale battery projects.
