# Which village has solar power generation

## Overview

---

MODHERA, (IANS) – A unique blend of tradition and modernity, the hamlet of Modhera, nestled in the heart of Gujarat, has carved its name in history by becoming India's first solar-powered village. Launched in 2022 under Prime Minister Modi's "One Sun, One Grid" initiative, the project integrated more than 1,300 rooftop panels on homes and public. If there is an achievement that has transformed the face of a small village to become a global phenomenon, Modhera would rank amongst the leading names in the category of solar. Yes, this is the first solar village in India that has a lot to desire. This initiative, which caught global attention, is a significant stride towards achieving a harmonious. A tiny village near Kolhapur is rewriting India's rural future — with solar rooftops, pink homes for women, and innovations that show what collective will can truly achieve. Join us as we explore their journey and the invaluable lessons you can apply to your own energy practices.
