# Wind turbine operation and maintenance solution

## Overview

---

Our dedicated team of skilled engineers and technicians delivers a full suite of services - from commissioning and start-up to operation, maintenance, and specialized repairs - ensuring your turbines operate with maximum availability and efficiency. WEG combines advanced manufacturing technology and operational expertise to set the industry benchmark for performance and reliability. We have been at the forefront of the renewable energy sector for more than 40 years; customers can rely on us not only to service their current onshore and offshore needs but to anticipate future requirements as well. Safe, skilled and comprehensive turbine maintenance packages from the most experienced service partner in the industry. Ensuring turbines operate efficiently and with minimal downtime is critical for maximizing ROI and meeting sustainability goals. The landscape of O&M providers is.
